## SIU-SW Asks \$30 Million

Construction of facilities costing \$30,140,341 at the Southwestern campus of Southern Illinois University was included in a proposed 1971-72 capital budget of \$72,025,063 requested Friday by the SIU board of trustees, meeting at SIU-SW.

The request goes to the Illinois Board of Higher Education, which will study it and make ultimate recommendations to the General Assembly. In addition to the \$30,140,341 figure for the local campus, the request includes \$26,053,043 for SIU at Carbondale, \$9,115,000 for SIU's new Springfield medical campus and \$4,616,179 for the Vocational-Technical Institute east of Carbondale.

**Utilize Building Authority**  
The largest single item—\$36,411,967—is in the form of requests to authorize the Illinois Building Authority to construct facilities at the Southwestern and Carbondale campuses.

Other budget categories include non-Building Authority buildings, land acquisition, equipment, utilities, remodeling, site improvements and planning funds.

SIU-SW listed top priorities on expansion of its heating and refrigeration plant; funds for completing the purchase of the Allen center, formerly Shortleiff College; and planning, remodeling and equipment for the SIU School of Dental Medicine in Alton.

**Physical Education Project**  
Another ranking item at the local campus is completion of the physical education building, which is expected to be under a short time ago released more than \$3 million for the first phase of construction of this building.

Equipment, utilities and site improvements for the first stage of the Springfield medical

instructional facilities group are shown as prime budget needs for the medical campus.

A \$3½ million appropriation for the initial stage was approved earlier this year.

Also requested is \$7,500,000 for a second instruction group at Springfield.

**Carbondale Security Office**  
At Carbondale, a building to house the campus security office leads all priorities. The force now is located in an old two-story house.

Also high listed at Carbondale are a refrigeration plant to serve air-conditioning needs on the south end of the campus and a learning resources and library complex previously approved but not budgeted.

Major priorities at the Vocational-Technical Institute are a learning resources center and library, and utilities for a master distribution system.

## SIU-SW Codes on Conduct, Rights

The Southern Illinois University board of trustees, meeting Friday at SIU-SW, accepted for the Southwestern campus:

1. A student conduct code.
2. A student rights code.
3. Procedures for demonstration.

Each of the documents outlines in detail the position of SIU at the local campus. The reports went into effect immediately. Chancellor John S. Rendleman told the trustees that the documents were being reviewed by the Student Affairs Council and the interim regulation will be in final form for action by the trustees next month.

**Grounds for Expulsion**  
In the Conduct Code, there are the grounds for separation from the university by suspension, dismissal or expulsion:

—Unprovoked use of force or violence against any member or guest of the university community.

—Interference — by force, threat or duress — with the freedom of movement of any member or guest of the university.

—Continued occupation of a university facility, or forcible disruption of a university-sanctioned activity, after being directed to leave, or to cease said disruption, by the chancellor (or his delegated representative).

—Defacement or theft of university property or of property owned by members or guests of the university community, or malicious damage to any of the above property.

—Academic cheating or plagiarism.

—Unauthorized possession or use of firearms or chemicals which are explosive in nature, or which otherwise are classified as weapons.

—Forgery, furnishing false information, alteration or misuses of university documents (including identification cards) with an intent to deceive the university.

**Disciplinary Probation**  
Engaging in any of the following conduct provides grounds for disciplinary probation or lesser sanctions:

—Trespass or unauthorized entry to properties within jurisdiction of the university.

—Violation of motor vehicle regulations.

—Violations of regulations governing the use of university facilities, including residence halls.

—Illegal possession, sale or delivery of narcotic drugs, or other materials prescribed by state or federal laws, or of intoxicating liquors on properties within jurisdiction of the university.

Repeated instances of conduct which calls for disciplinary probation are grounds for separation from the university.

Also outlined is a code of procedures on how or not a person can be re-admitted to the university.

The conduct code states when a student is charged with a violation of a law of local, state or national government, the university will not request special consideration for the student or initiate internal disciplinary action unless a viable university interest is clearly involved, although the university will cooperate fully with external agencies in any program of a rehabilitative nature.

When the civil violation also violates the Code of Student Conduct, appropriate actions may be taken within the university.

In the paper on student rights, the rights to:

Students have a right to disagree with views offered in the classroom; student views shall be kept confidential and no record on a student's political views will be kept.

The rights include:

Academic records and disciplinary records will be kept separately; student organization membership lists will not be required for recognition; no student can be denied admission to the university or any university

organization on basis of race or sex.

Students will be informed of rights upon arrival or upon being charged with serious violation of university regulations or civil law.

All records relating to disciplinary matters will not be kept in excess of four years or graduation; the university shall provide means to apprise students of legal aid and may offer other assistance; there will be no censorship of student publications.

The student body should have clearly defined means of participation in the formulation and application of institutional policy affecting academic and student affairs.

Any student will have the right to approach the director of any function or operation within the university with regard to seeking a redress of grievance pertaining to that function or operation.

The demonstration procedures outline what the university considers as a demonstration, how one is to be scheduled and the role of security both on and off the campus.

## Bandits Beat Victim; Pair Robs Western Union Office

Robbery of a Granite City man who was left for dead by four bandits on the riverfront yesterday and the daylight holdup of the Western Union office by two armed men highlighted a series of weekend crimes in the Quad-City area.

A Granite City man was beaten and robbed early Saturday morning by four men who left him for dead after taking his lifeless body to the riverfront.

Thieves entered the home of Mr. and Mrs. A. L. "Pete" McRaven, 2718 Cypress street, between 5:30 p.m. Saturday and 2:45 a.m. Sunday and removed two color television sets, a stereo and albums valued at a total of \$1,275.

A basement window at the McRaven residence was smashed and the facing on a rear door was broken, with a hole cut in the screen door. The owners found the front door of the residence wide open when they returned.

Loat included the television sets, valued at \$600 and \$400, a 200 stereo-photograph and five records worth \$25.

**Madison Burglary**

Marks, 2960 Marshall avenue, at 12:10 p.m. Sunday at Route 3 and West Chain of Rocks road. He was taken to St. Elizabeth Hospital for treatment and was transferred to DeSage Hospital, St. Louis.

Two passengers were injured when an auto driven by Al Burston, Stratford lane, struck a tree while driving in the fog early Saturday at Kaseberg park.

Taken to St. Elizabeth Hospital at 2 a.m. were Ronald Keckler, 28, of 4256 Lake drive, and Bill Gant, 27, of 6 Kaseberg park. Both were released after treatment. Keckler had lacerations and abrasions to the left knee and jaw. Gant had a laceration to the forehead.

**7 DAYS WITHOUT A QUAD-CITY TRAFFIC FATALITY**

**Lipsett Strike Ends, Contract Accepted**  
The 21-day old strike at Lipsett Steel Products, Inc., 2530 East 23rd street, has been settled. It was announced today by the United Steelworkers, Local 5574.

A new three-year contract was accepted by the membership of United Steelworkers at the Labor Temple. It includes a raise of 30 cents per hour for the first year and 30 cents each in the second and third year, along with increased fringe benefits equivalent to 10 percent of the base wage.

**Car Crashes Through Fence into Ditch**  
A Granite City motorist whose auto crashed through a chain-link fence on East 23rd street and overturned in the city-owned drainage ditch walked away from the accident apparently unhurt.

Ticketed on a charge of reckless driving was Ronald C. Wrane, 22, of 2100 Grand avenue, who police said was driving west on East 23rd street, near Ridgedale avenue, at 1:45 a.m. Saturday.

The auto crashed through chain fencing, located along East 23rd, and overturned, landing on its roof in the drainage ditch. Approximately 30 feet of fencing, owned by the city, was damaged, the report said.

## Exemptions for 1970 Valuations to Total About \$8 Millions

Property valuations in Granite City township for the 1970 tax year have been cut \$3,841,145 below last year's total as a result of new laws exempting certain categories of personal property assessments, it was learned by the Press-Record today.

In addition, further assessment reductions estimated at \$2.1 million are to be made later this year by the Madison county Board of Review in the form of Homestead Exemptions allowed under another new law on real estate property owned by persons 65 years of age or older.

On this basis, the Granite City township property assessments for the 1970 tax year, on which tax bills will be based for collection next year, are expected to total about \$8 millions less than the \$174,891,400 total valuation for 1969, according to James Barton, Granite City township assessor.

**An \$8 million reduction in the Granite City assessment could mean a loss of \$437,600 to the townships five taxing agencies on the basis of the 1970 combined tax rate of \$5.77 per \$100 assessed valuation.**

Barton announced that he has extended a total 1970 property assessment of \$180,000,345, of which \$70,471,300 is in personal property valuations.

**1969 Assessment Higher**  
For the 1969 tax year, on which taxpayers were billed this year, the total assessment was \$174,891,400, with \$73,855,880 of the amount representing personal property valuations.

These figures show that the reduction in personal property valuations actually totaled \$7,184,115, but part of this loss was offset by a \$1,940,700 increase in real estate assessments.

The assessment reductions were effected in two programs under legislation passed in the 1969 session of the General Assembly. One of the acts provided for elimination of personal property assessments on autos used for pleasure and on household furnishings.

The other provided for homestead exemptions of \$1500 each on real estate property owned by persons 65 years of age or older. In both instances the taxpayers were required to file applications to take advantage of the cut. The applications were reviewed by the town assessors who applied the personal property reductions in their 1970 assessments.

The real estate exemptions, however, were referred to the board of review which must check the property descriptions and approve each individual exemption.

**Bars Down \$4.7 Million**  
Barton said that upon completion of his assessment of books, which were turned over the board of review last week, figures showed 1970 passenger auto assessments of \$1,676,660.

**Venice Okays 2 Street Projects**  
Resolutions providing for two street improvements within the Venice area were approved by the Venice city council in regular meeting Friday night.

The council action calls for removal and replacement of the present bituminous surface of Market street between State and Broadway, along with removal and replacement of the present curbs and gutters on Market street, a distance of one block, with bituminous surface. The project is expected to cost around \$250,000.

The other project provides for resurfacing of Madison avenue from Collinsville avenue to Market street, a distance of one block, with bituminous surface. The project is expected to cost around \$250,000.

The council also filed a report by Chief of Police Ralph Bradley showing a total of 34 arrests during August. The city received \$176 in fines as the result of disposition of the report.

Next meeting of the Venice council is scheduled Oct. 2.

## Cystic Fibrosis Appeal Starts in Quad-Cities

The annual public appeal by the National Cystic Fibrosis Research Foundation is taking place this week in Madison county, including the Quad-City area, where house-to-house visits by volunteer workers are scheduled today through Sunday.

A proclamation was issued earlier by Mayor Donald Partney of Granite City, Mike Sasyk of Madison, Dr. John E. Lee of Venice and Thomas Stalcioff of Pontoon Beach, designating the current week as "Children's Lung Disease Week."

Mrs. Alice Worthen, 3224 Aubrey avenue, who is heading the campaign in Madison county, said today that volunteer workers still are needed.

"Anyone willing to donate a little of their time to help us in this vital task is invited to call me, at 877-1478," the chairman stressed. Additional information about the campaign also may be gained by calling 876-6632, Mrs. Worthen said.

Cystic Fibrosis is the most serious disease affecting children's lungs and digestive tract. One in roughly 1000 infants is born with the ailment, which is hereditary.

The National Cystic Fibrosis Research Foundation operates 110 Cystic Fibrosis Centers throughout the United States. Two centers, located at St. Louis Children's Hospital and Cardinal Glennon Hospital, are financed with funds received from this area.

Both St. Louis C/F Centers care for afflicted youngsters from Illinois and Missouri and provide services for children with severe asthma, chronic bronchitis and childhood emphysema, among other lung-damaging ailments.

Mrs. Worthen is the grandmother of two youthful victims of Cystic Fibrosis. A third grandson died from the disease two years ago. A fourth grandson recently was diagnosed free of the tragic ailment.

In addition to house-to-house solicitations throughout the community, donations may be placed in canisters located at many local business firms, Mrs. Worthen said.

Contributions also may be

## Caruthers Gains U. S. Point Lead at Track

By GARY SCHNEIDER

Press-Record Staff Writer  
Jimmy Caruthers of Anaheim, Calif., became the undisputed U. S. Auto Club midwest point leader by winning the Branson-Mueller Memorial Race feature Sunday at the Tri-City Speedway.

He came to the track with a 94 point lead over Dave Strickland of Walnut Creek, Calif., after a race Saturday at Lake Hills Speedway, Valley Park, Mo., which cost Strickland the lead.

The number of midwest cars and drivers on hand for the race surpassed expectations as 53 cars entered and 51 qualified. Qualifications took nearly three hours.

Two accidents marred the afternoon as Mel Cornett, Milwaukee, Wis., flipped three times in the second turn during warm-up laps, and Don Vogler of Glen Ellyn lost control of his midwest car during time trials, flipping the auto several times, eventually over the fence in the third turn.

Vogler was not injured but Cornett was taken to St. Elizabeth Hospital, where he was admitted in good condition with abrasions and contusions of both knees, the left lower leg and right hand.

**GC Assessments**  
MORE ABOUT  
tax exemptions had been made. This is a reduction of \$4,788,859 below last year's auto assessments of \$3,829,610.  
A total of 3714 autos still are assessed on the 1970 books, compared with 11,834 assessed for the 1969 year.  
The new Granite City assessment for household furnishings is \$91,820. Barton said, compared with \$2,666,120 for 1969, a decline of \$2,574,300.  
Similar reductions are being effected in other townships in the Quad-City area and throughout the county, and will have a serious affect upon the financial status of virtually all taxing agencies next year.  
Barton said the homebased exemptions still to be applied by the review board are expected to total \$2.1 million on the basis of exemption applications received by his office.  
The assessor said his office received about 1400 application forms, which at the exemption figures of \$1500 each amounts to a total of \$2,100,000.  
"Granite City should have a reduction of approximately \$8 million overall after the home-based exemptions are applied," Barton said. "The reductions will be effective for the 1970 tax year and applied in extending tax bills due for payment in 1971."

The promise of a colorful variety program, "lots of good food" and dancing to the music of a Latin American orchestra once again attracted more than 500 area residents to the annual Mexican Independence Day "Fiesta," held Saturday evening at Venice-Madison American Legion Hall in Venice.

The event, which annually draws a capacity crowd, was sponsored by the Mexican Honorary Commission of Granite City.

A highlight of the evening came with introduction of several distinguished guests, including Mrs. Ana Maria Bartling, Mexican consul in St. Louis and Mrs. Josephine Reszley, who was presented with a gift.

## RIDC Membership Drive Goes Over Goal—202 Firms

The first joint membership campaign of the Regional Industrial Development (RIDC) and the St. Louis Research Council reached 200 new members, according to Dr. Delyte Morris, chairman of the board.

"With the signing of our two hundred and second member firm this week, we have surpassed our goal of 200 new members," Morris said. The campaign began in February with Sen. Charles Percy as the kick-off speaker.

Included in the 202 new member firm or organizations are 39 Chambers of Commerce. Twenty-three of the chambers have signed affiliation agreements with RIDC. Twenty-one of the Chambers are in Missouri, 15 are in Illinois. Twenty-seven per cent of the new firms are in Illinois.

RIDC was formed to stimulate the total economic growth of the Bi-State region, which includes, in Illinois, Madison, St. Clair and Monroe counties, and in Missouri, Jefferson, Franklin, St. Louis and St. Charles counties and the city of St. Louis.

The Research Council concentrates its efforts on purely research-oriented industry, government laboratories and research-oriented training facilities.

RIDC and the Research Council affiliated in 1969. This was their first joint fund-raising effort.

John Black, retired executive vice-president of Southwestern Bell Telephone Co., was campaign chairman.

### License Issued

A marriage license has been issued in St. Louis to William H. Medley and Mrs. Virginia R. Alschire, both of Granite City.

**Teaching Assistants At SIU-SW Workshop**  
Twenty-five graduate teaching assistants are attending an experimental two-week workshop on teaching methods and orientation at Southern Illinois University-Southwestern.

The program, sponsored by the Office of Academic Affairs, is designed to expose teaching assistants to all areas of the university, including the administration, academic divisions, and the student body, according to Stephen Brown, coordinator of the program and a member of the Experimental Studies staff.

The program begins daily with a presentation by a member of the university faculty, staff, or student body with discussion periods following each session. Brown said the graduate assistant is exposed to various techniques of teaching and is briefed on instructional materials that are available to assist and enrich a subject presentation.

Included in the daily programs are afternoon sessions utilizing the micro-teaching method. This method includes the use of cameras and recorders on both the student and teacher. This allows the assistant to observe himself and critique his or her presentation. Sessions which add to the validity of the setting and provides a record of response to the presentation.

Brown, who wrote the proposal for the workshop, says "a great number of students attending the larger universities often complain about the caliber of instruction they receive. Since the graduate assistant is also a student, a program like this is designed to bridge the gap between his roles as a student and a teacher and create a better teaching situation."

Co-directors for the program are Donald Keefe and Rudy Wilson, both members of the faculty of the Education Division.

Steinhauer, works manager. Left to right: Joe Lane, general foreman, maintenance shop; Naler; and Steinhauer. Naler resides at 2406 State street. He and his wife, Patricia, have five children.

## Machinist Wins \$491 Suggestion Award

Robert C. Naler, a Granite City resident and machinist at the Granite City plant of American Steel Foundries, has been awarded \$491 for his suggestion to repair slobber guns.

A slobber gun is used to remove sand from metal castings by means of a hammer under air pressure. However, the constant force of the hammer frequently caused the gun's valve mechanism to break.

Under Naler's suggestion, only a bushing insert is required to be replaced, making the mechanism easier to repair and giving it longer life.

The suggestion award is Naler's second in the five years he has been with ASF. In May, 1967, he developed a new method of simultaneously boring and scraping center plates on freight car bolsters. Naler resides at 2406 State street. He and his wife, Patricia, have five children, American Steel Foundries is an operating unit of AMSTED Industries, Chicago.

**STEVENSON IN ATTACK ON GOP Campaign Funds**  
State Treasurer Adlai E. Stevenson III, Democratic candidate for United States Senator, declared last week that W. Clement Stone's plan to spend \$1 million dollars for Republican candidates will be a major issue in the campaign.

"Do we want," said Stevenson, "rich men to be able to buy Senate seats with one million dollar contributions? Or do we want Senators who are free of obligations to millionaire contributors, who are free to vote and to act for the public interest instead of the private interest?"

Stevenson made his remarks at a noon meeting of the City Club in the Sherman House.

Stevenson also shrugged off the parade of political personalities visiting Illinois this week on behalf of his opponent.

"I hope," Stevenson said, "they will add tourism dollars to the Illinois economy. More important, though, the people of Illinois need a Senator who can stand on his own two feet and fight for them. I don't need any propping."

"The people of Illinois don't need a Senator who says 'Thank you, sir' to a Chicago millionaire, 'yes, sir' to a governor, and 'me, too, sir' to a president."

**W. L. Montgomery**  
Marine Corporal William L. Montgomery, husband of the former Miss Paula L. Watson, 1947 Joy avenue, has been promoted to his present rank while serving in the 1st Marine Command in Vietnam.

**John Wood Wins York Cross of Honour**  
John Leroy Wood, 2906 Washington avenue, has been awarded the designation of Knight of the York Cross of Honour, it was reported today.

The honorary degree, highest in the York rite of Freemasonry, is conferred only on those who have held the highest office in each of the four bodies of the rite.

Wood served as master of Granite City Lodge of Masons in 1961, high priest of GC chapter, Royal Arch Masons in 1962, master of St. Clair council, Royal and Select Masters in 1962 and commander of East St. Louis commandery, Knight Templar, in 1968.

He was elected to membership in Illinois priory and his election was confirmed by consent general of the order on Sept. 14.

There are 64 priories of the order in North America and the Philippines with a present membership of 8800.

John Leroy Wood, 2906 Washington avenue, has been awarded the designation of Knight of the York Cross of Honour, it was reported today.

The honorary degree, highest in the York rite of Freemasonry, is conferred only on those who have held the highest office in each of the four bodies of the rite.

Wood served as master of Granite City Lodge of Masons in 1961, high priest of GC chapter, Royal Arch Masons in 1962, master of St. Clair council, Royal and Select Masters in 1962 and commander of East St. Louis commandery, Knight Templar, in 1968.

He was elected to membership in Illinois priory and his election was confirmed by consent general of the order on Sept. 14.

There are 64 priories of the order in North America and the Philippines with a present membership of 8800.

## Running Power, Interceptions by Warriors Prevail 14-0 at Decatur

By TERRY TOTH  
GCHS Football Writer

Great running and key inter-  
ceptions led the Granite City  
high school Warriors to a 14-0  
victory over the Stephen De-  
catur Reds Saturday night at  
Decatur.

The football Warriors of Coach  
Wayne Williams showed impres-  
sive power as they rushed for  
a total of 320 yards.

Workhorses for Granite City  
were Halfback Mike Wilson, who  
rushed for big yardage and  
helped put the Warriors in good  
scoring position, and Quarter-  
back Don Harris, who ran for  
two touchdowns and completed  
four of 14 passes.

March Ends Yard from Goal  
No scoring was done by either  
team in the first quarter. But  
the Warriors threatened with a  
66-yard drive which was halted  
on the Decatur one-yard-line by  
the Stephen Decatur defense.

Early in the second quarter,  
Decatur was penalized on fourth  
down. Granite City declined the  
penalty and took possession on  
the Decatur 34-yard-line.

After two runs gained sub-  
stantial yardage, Harris ran  
around right end from the 15-  
yard-line and went across the  
goal for a touchdown. The extra  
point kick by Joe Wallace made  
the score 7-0.

The score remained the same  
until the fourth period. The sec-  
ond Warrior touchdown came  
after a pass interception by  
Mark Coy with seven minutes  
and 30 seconds left in the game.

Coy ran from his own 45-yard-  
line to the Decatur 15, and side-  
line observers called it an out-  
standing run. The play set up

a TD run by Harris, this time  
around left end. Again the kick  
by Wallace for the point after  
touchdown split the uprights.

Decatur, which rushed for a  
total of 145 yards, used two  
quarterbacks, Cliff Taylor, the  
quarterback in the first half,  
was one-for-five in pass comple-  
tion. Dave Perry next saw sig-  
nal-calling duty and completed  
three of nine aerials.

Neither of the quarterbacks  
could bring the Reds past the  
GCHS 35-yard-line.

Reception the Hard Way  
The only serious threat by  
Decatur occurred in the third  
quarter on a spectacular play  
in which Perry threw a pass  
that bounced off the fingertips  
of one Decatur receiver and into

the hands of Kerry Beck of  
Decatur.

The Granite City defense  
tightened and the host team  
could advance no farther.

Interceptions by Warriors  
Dave Carmody and Sam Mitch-  
ell helped keep the Decatur  
eleven from reaching the scor-  
ing column.

**BIG GOAL BY BIG JOHN** Carenza of SIU-SW as his team won 2-1 in its  
season opener Saturday in Chicago.

## Cougar Kickers Claw Foes, 2-1

Big John Carenza of Southern  
Illinois University's Southwest-  
ern campus soccer team has  
taken up this season where he  
left off in 1969. He blasted  
home both goals as the Cougar  
kickers turned back the Uni-  
versity of Illinois, Chicago  
Circle, 2-1, Saturday morning  
in the Windy City. It was the  
local campus Friday afternoon  
season opener for both teams.

The Cougar soccer team will  
open its home campaign at the  
local campus Friday afternoon  
against a strong University of  
Akron team.

Face-off time is 4 p.m. New-  
ly-erected steel bleachers at the  
Cougar field will be able to take  
care of 5000 fans. SIU-SW will  
host the 1970 National College  
Athletic Association soccer  
championship U. S. finals in  
early December.

Carenza's two goals against  
the U. of I. Saturday made it  
five in a row against the Chi-  
cago club in two seasons' play  
for Big John. He scored all  
three against the Chikas in the  
Cougar's 3-1 victory last year.

Sam Donnelly, coach of the  
Circle team said, "Believe me,  
I'll be glad when Carenza  
graduates. He's tremendous...  
he's so strong that he can  
dominate the play against any  
club. Man! It's like SIU has 10  
players and a Sherman tank  
going against you." Carenza  
is just a junior.

Carenza put the Cougars  
ahead at 7½ minutes into the  
first quarter when he took a  
clever pass from Jack Blake  
and blasted the ball in from 20  
yards out, past Circle's great  
goalie, Ray Roy.

From then on, until five min-  
utes into the fourth period, it  
was SIU's offense against Cir-  
cle's Roy, who is almost a  
shoo-in as All-American at goal  
this year. The Cougars outshot  
the Chikas, 30 to 8, and only a  
brilliant performance by Roy  
prevented the game from turn-  
ing into a complete rout.

Big John's kid brother, fresh-  
man Chris, set up the Cougars'  
second goal, scored at five  
minutes in the final period by  
Carenza. Bruno Gwardys got  
the loser's sole goal on an un-  
cleared ball with less than 10  
minutes remaining in the  
game.

As you can see, this ain't  
Earl, brother. And by now  
you're probably wondering  
what's going on. Well, it  
all started when Earl said:  
"I'll bet you can't write as  
good a huntin' column as I  
can a fishin' column." At  
those words the battle be-  
gan and we've decided to  
leave the decision to you.

Laying all kidding aside,  
we do hope you enjoy our  
columns from one season  
to the next. We delight in  
bringing you the latest in  
facts whether it's hunting  
or fishing.

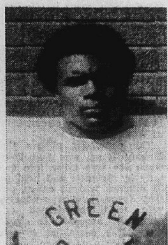

The famous saying is, "Go  
West, young man, go  
West." Right now that's  
no perfect direction to take  
if you like stalking prong  
horn antelope and Mule  
deer. The season is open  
in the North Farris-Seminole  
Mountains, just a few miles  
north of Sinclair, Wyoming.  
I've seen some real nice  
trophies come out of there.  
Chased a few myself.

Oh, by the way, with Teal  
season now open, some  
might be interested in this  
year's new point system on  
ducks. If you would like to  
know how you can kill as  
many as 10, totaling 180  
points, and still be legal,  
stop in at (you guessed it,  
when it comes to commer-  
cial I'm just like you-know-  
who) Earl's Discount Store  
and we'll talk huntin' talk.

That's... That's...

## Balanced O'Fallon Attack Stops Madison in Grid Opener, 36-15

By ROBERT MANGOFF  
MHS Football Writer

The Madison high school Trojans, undefeated last year, have played only one game but can no longer claim unbeaten status. They began their 1970 football season Friday evening at O'Fallon by losing to the O'Fallon Panthers 36-15.

The Trojans led 15-14 at half-time but tired in the second half, enabling the more deeply staffed host team to rally and win. The polished performance by the Panthers was highlighted by the effective use of two quarterbacks, Wayne Weber and Mike Feist.

Madison touchdowns were scored by the two starting halves, Dwayne Shaw and Robert Pryor. Both are seniors. Shaw, 5-11, weighs 200 pounds and Pryor, 5-10, is a 180-pounder.

The other points were tallied by Shaw, who kicked the extra point after his own first-quarter one-yard TD plunge, and then ran a two-point conversion after Pryor's second-period touchdown. The 38-yard pass play to Pryor included a 14-yard aerial and 25-yard scamper.

**Ground Offense Clicks**

The MHS offense was sparked primarily by running gains, particularly those of Shaw and Edward Chandler, while O'Fallon succeeded equally well on the ground and in the air.

Neither team could keep a sustained drive going in the first minutes of play.

Taking the opening kickoff at the 15-yard-line, Trojan Chandler, a 5-11, 185-pound junior fullback, returned it to the 25.

but his team could advance only eight yards on three running plays and was forced to punt.

O'Fallon started its initial drive on the 39 and was still a yard shy of a first down after three runs.

**Miss Snap from Center**

When it attempted to punt, the punter recovered the fumble. Although the kicker's legs, although the punter recovered the fumble, the Trojans had the ball on the Panther 25.

Runs by Shaw of 15 and nine yards set the stage for his short touchdown run.

A good kickoff return placed the Panthers on their own 44 but on the second play Shaw intercepted on his own 40 and ran to the enemy 31. A penalty helped frustrate the Trojans, who lost the ball on downs at the 25.

A long O'Fallon lateral-and-run gain ended in a fumble re-

covered by Madison on its 30-yard-line. But after a five-yard penalty and three-yard run put MHS at the 28, disaster struck.

**Fumble Leads to TD**

A Trojan runner fumbled and the ball was picked up on the MHS 30 by Feist, who carried it into the end zone for a six-point touchdown. A kick for the point after touchdown tied the score at 7-7.

Madison failed to develop offensive momentum and in the second quarter O'Fallon drove 59 yards for a touchdown, the march being highlighted by a pass from Feist to Halfback Larry Goodman that advanced the ball from the Madison 41 to the five-yard-line.

Fullback Dave Mueller then ran the ball into the end zone and a kick for the extra point put O'Fallon up 14-7.

Madison used 15 plays to drive to the Panther 28 before losing

## Scoreboards Improved at GCHS Stadium, Gymnasium

Sports fans of Warrior teams will be able to keep better track of the games, both inside and outside, thanks to the efforts of the Trust and Savings and R. Dron Electrical Co.

The scoreboard on the football field was difficult to see in daylight games; sophomore team plays at 4 p.m., and the varsity will play a 1:30 p.m. game against Cahokia here Sept. 26. There is a trend to ward more afternoon varsity football games.

To solve the problem of daylight, amperage in the football scoreboard has been raised and 25-watt bulbs have replaced the

15-watt bulbs.

To further amplify the light to the eye, shields around the lights have been painted charcoal black.

Inside the gym there was frequently a problem in seeing the scoreboard clearly when foul lights were on. The more foul lights turned on, the less power was available for the other lights on the scoreboard. To correct this, the power had to be re-channeled.

The bank bought the materials and the electric firm furnished manpower and knowledge. Joseph Fedora, director of athletics, reports.

**Trojans Take Lead**

Weber immediately passed to Halfback Scott Weidner for an apparent touchdown but a penalty nullified the play and Madison Guard Harold Campbell recovered a fumble on his 38-yard-line, leading to the Trojans' second TD drive, climaxed by the Lewis-to-Pryor pass. Two penalties failed to halt Madison.

In the second half, O'Fallon, playing tough offensive and defensive football, scored three touchdowns while holding Madison to none.

The TD that put the Panthers in front was scored by Mueller after O'Fallon had marched from the Trojan 48, mostly on runs by Mueller, Weidner and Weber.

**Fourth Period Scoring**

In the fourth period, Weber passed from the MHS eight-yard-line to End Robert Foster in the end zone. The kick for the extra point failed, leaving the score

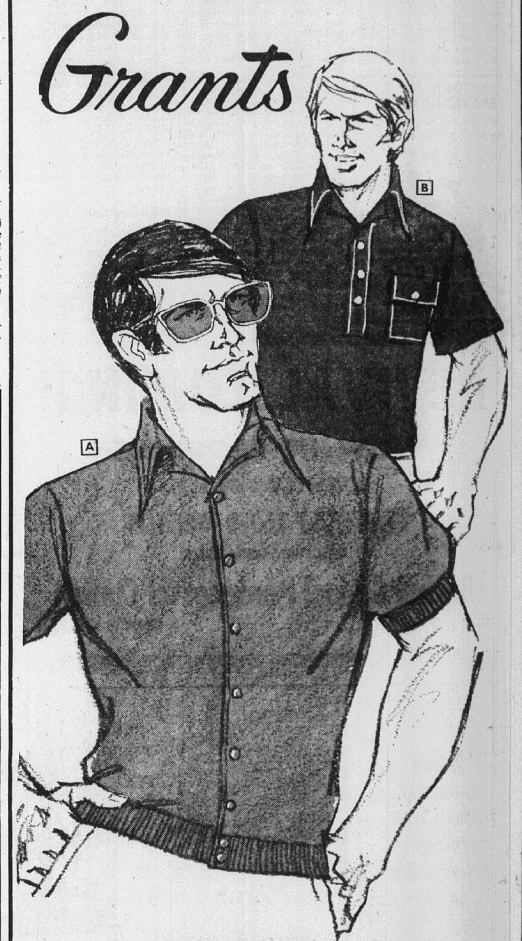

28-15. Runs by Mueller and three plays moved to the MHS 36, aided by Mueller's 25-yard ground gain.

The Trojans advanced to midfield but Mike Cozart of O'Fallon intercepted a pass and ran to the Trojan 30.

Weber later threw a 20-yard touchdown pass to End Kevin Kambrink and a two-point pass to Foster.

## Madison Ponders Mobile Home Problem

A request by Second Ward Alderman Richard Kismar for a special use permit to locate a mobile home in a restricted residential area has brought before the Madison city council a problem that one council official termed "a ticklish situation."

Alderman Kismar made his request in behalf of a second ward resident whose husband is a disabled workman and whose son is retarded. The woman seeks to locate a mobile home on her own property.

"This is a hardship case and we have a petition signed by 26 persons living in the vicinity who have no objection," Kismar told the council last week.

Noting that Madison has an ordinance prohibiting parking of mobile homes within the city, City Attorney Nick Vastieff said a recent Illinois Supreme Court ruling declared such an ordinance unconstitutional.

Corporate Counsel John Gincholf said a petition for a re-

hearing currently is pending before the state Supreme Court.

**Ticklish Situation**  
Third Ward Alderman Ray Kouzelek commented, "This is a ticklish situation when you put a trailer in a residential area. How will this affect the zoning ordinance we are working out with the planning commission?"

First Ward Alderman Donald Reeves stated, "In the eight or nine years, I have lost friends by having them move trailers off lots. If you are going to break an ordinance for one, then more will follow."

"What is going to stop Madison from becoming a trailer city. This would be an open door. Invitation and we have stopped many from coming in up to now," Fifth Ward Alderman John Haynes stressed. Kismar noted the ordinance was written to protect homeowners in residential areas and commented, "We have the signatures of the neighbors saying they approve."

Under the present Illinois Supreme Court ruling, the Madison ordinance is unconstitutional, Gincholf stated. He cautioned, however, a successful appeal against the ruling, would necessitate the owners removing the mobile home. Petitions usually are reheard within a 90-to-120-day period, he said.

The council also has voted to allow expenses, amounting to \$300 each for city officials to attend the Illinois Municipal League's 57th annual convention, set for Oct. 9-5 at the St. Nicholas Hotel, Springfield. Reservations are needed immediately, City Clerk John Bellico advised.

A petition signed by a large group of residents who seek better enforcement of laws

regulating animals within the community has been presented to the council.

The petition asserts the city's large dog population is causing numerous problems, and complains of loud and excessive barking and unsanitary conditions caused by animals running out with the planning commission.

Several persons have been bitten by unleashed dogs, the complainants said. The petition requests the council adopt stricter measures against owners who allow pets to run at large.

### Henn Asks Leaders To Help Fund Drive

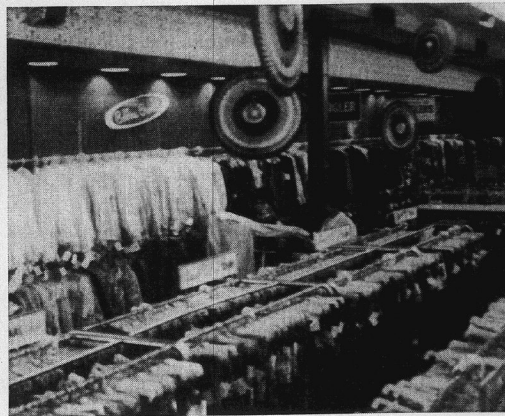

G. Rollin Henn, president of the Cahokia Mound Council, Boy Scouts of America, is urging all volunteer Scouters in the area to aid in the fall campaign of United Fund.

The United Fund is a major source of financial support for scouting's annual needs. About 60% of the Scout budget is secured through the various United Funds in Madison & Bond Counties.

Henn is asking Scout leaders to help in two ways by making a substantial contribution, and by serving as a worker in the drive.

### Highway Collision

Applying his brakes on wet pavement, an auto driven by Eugene A. Leppert, West Alton, Mo., skidded across the center and collided with a car driven by Melvin B. Mayes, 1439 Madison avenue, at 6:20 a.m. Friday on Route 3 at the A. O. Smith plant.

REMODELED INTERIOR. Leader's Department Store, 19th and State streets, has completed the first phase of an extensive remodeling and redecoration program of both exterior and interior areas. This view of the ladies ready-to-wear department features wider aisles, new rugs and new fixtures. Additional remodeling is planned soon, store officials said.

## 1st Remodeling Phase Completed at Leaders'

The first phase of remodeling of the Leader Department Store, 19th and State streets, has been completed, according to Mr. Irwin Strauss, one of the store owners.

With the elimination of the side windows, new see-through film has been installed.

The aisles of the interior have been enlarged, new rugs laid in the sportswear department and the dressing rooms. A new jewelry and accessories department also has been added.

The departments handling sportswear, coats, lingerie, uniforms and dresses have been enlarged.

Mr. Strauss said additional remodeling is planned soon.

Future plans call for remodeling of the men's and boys' departments.

Leaders Department Store has been serving the Quad-City area for more than 30 years.

## Sept. 30 Deadline to Get Same Auto Numbers

Sept. 30 is the deadline for reassignment of Illinois auto license plate numbers for 1971.

Secretary of State Paul Powell reminded today.

He emphasized that the law requires reassignment applications to be in his office on or before Sept. 30, which may result in the loss of a desired number for applications mailed on Sept. 30.

Applications processed for reassignment of current numbers have reached 126,445 with fees totaling \$3,494,346 deposited in the state treasury. At this time last year 113,816 reassignment applications had been processed with fees totaling \$3,078,000.

## K-Mart Sued Over Arrests at Store

A suit for \$500 actual damages and \$55,000 punitive damages has been filed for Joyce A. Hand and Melony Hand, a minor, against K-Mart Enterprises on Collinsville road and its security guards, William H. Branson and Gerald Capserant, in Madison county circuit court at Edwardsville.

The complaint alleges that Melony Hand was humiliated when she was taken into custody by Branson and held for 20 minutes without cause, and that Joyce Hand was charged with theft, imprisoned and eventually acquitted in circuit court. The complaint charges that the arrests were malicious. Capserant was Branson's supervisor.

## Two Seek \$9500 in County Dram Shop Suit

A dram shop suit for a total of \$9500 has been filed for Jack Kugler and Joseph Frano against Jane Hildebrand, doing business as the Triple lounge in State Park Place, and Blanche Allen, owner of the building, in Madison county circuit court at Edwardsville.

The complaint alleges that Kugler was injured after a patron of the tavern, Ed Murphy, became intoxicated and collided with his auto. Kugler is asking \$7500 damages. The Kugler auto, as a result of the collision, struck Frano's residence. He is asking \$2000 in damages.

## IP Home Economist offers free services to homemakers

A wide variety of free services is available to the housewife from her Illinois Power Home Service Department. Staffed by a trained home economist, this department helps homemakers solve problems that relate to utility service and appliances.

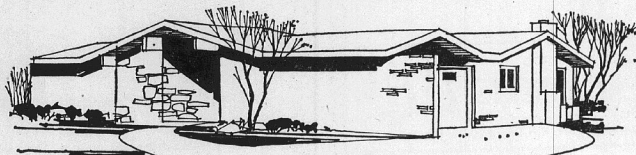

Your IP home economist can help you plan a new or remodeled kitchen—one that has a traffic-free, work triangle between your appliance centers, sufficient counter space at the proper height, well-arranged storage space, good lighting and wiring. When your kitchen is completed, it will be checked to see if it meets the requirements of a Golden Award Kitchen.

Because of the rapid introduction of new appliances, homemakers often need advice from someone experienced in this field. Your IP home economist can advise you on the proper operation and care of your appliances so that your family will get the most benefit from them and from your utility service. If the controls on a new appliance baffle you, or if an older appliance causes trouble, call your IP home economist for free advice.

The Home Service Department has a number of interesting and entertaining programs available for women's club meetings. Programs cover such subjects as laundry, lighting, kitchen planning and cooking. These programs are available to any group of at least 10 women. Similar demonstrations are available for 4-H, Junior high and high school students.

## Teachers Union Seeking Equal Bargaining Law

A spokesman for the Illinois Federation of Teachers has told the Illinois Democratic Party Platform Committee that it should make the granting of equal rights for public employees to engage in union organization and collective bargaining a major issue in the present election campaign. It was reported today.

Speaking for the statewide organization which represents about 36,000 public school and college teachers in Illinois, Oscar A. Well, executive director of the IFT said, "The most shameful fact is that public employees at the state and local levels in Illinois have engaged, with impunity, in wholesale violations of human and constitutional rights of their employees."

Well said both political parties must "share the blame for this sorry condition of the law because Illinois courts composed of both Democratic and Republican judges have offered no relief from such abuses."

He said the only relief has been in federal courts, which have issued opinions that union activities are protected by the Federal Constitution.

Well recommended the Democratic Party "work to establish penalties against public officials who discriminate against employees who engage in union activities." He asked that the party itself discipline any of its members who hold or seek public office when it is known that such persons have a record of interfering with the right of employees to self-organization and free collective bargaining.

In a statement regarding the question of strikes by teachers, Well said that scores of teachers have been fined and sentenced to jail for violating injunctions against strikes. He said the IFT recommended in its statement that the Democratic Party of Illinois take the lead in establishing protection of the right to strike for public employees by seeking legislation to outlaw use of injunctions against strikes "where it has not been proven in a court of law that there is a clear and imminent threat to health and safety." Well says his union will not support any candidate for public office who does not favor such legislation.

**DRIVE LEADERS** spearheading a campaign to win passage of the anti-pollution bond issue proposal are, left to right, Charles L. Brown, chairman of the Illinois Citizens for Clean Water; William M. Humbert, chairman of the drive in an eight county area, and Jim Mathusson, executive director of the citizens' group.

## \$750 Million Anti-Pollution Drive Opens

Quad-City area officials including Mayor Donald Partney of Granite City and Mayor Mike Sasyk of Madison joined Thursday afternoon with members of the "Illinois Citizens for Clean Water" in the kickoff of a drive to win approval for the Anti-Pollution Bond Act to be submitted to the voters Nov. 3.

The official attended a general information conference on the subject at the Lewis & Clark Restaurant in East Alton to hear what the new act would mean to those living in the Quad-City area, and what it will cost them.

On hand to answer questions concerning the proposal were Charles Brown, Chicago, president of the Illinois Bell Telephone Company and chairman of the Illinois Citizens for Clean Water; William M. Humbert, public affairs manager for the Olin Corp. in East Alton and vice-chairman of the citizens group; and Jim Mathusson, executive director of the anti-pollution organization.

**\$750 Million in Bonds**  
The \$750 million Anti-Pollution Bond Act was signed by Gov. Richard B. Ogilvie on July 2 after it was passed by both houses of the Illinois General Assembly. If passed by a majority of those who vote Nov. 3, it will enable the state to sell general obligation bonds to finance new sewage treatment

and the Pontoon Beach-Lake-shire facility will cost about \$50,000. The needs of other local municipalities were not discussed.

"We have less than 46 days to convince the voters," said Humbert. "We need help and the bond issue provides this help now, and it provides it at the lowest possible cost," he said.

A list of treatment plant construction needs issued at the meeting showed that Pontoon Beach is in need of an estimated \$270 in improvements

to continue their tour of the country. Young men who will be visiting are: Antonious Douma, 28, of Holland, an elementary school teacher; Victor Conrad, 18, of Germany, who will begin college this fall, and Francis Verheyen, 26, of Holland, leader of the tour.

Young ladies here will include Ute Moller, 21, of Germany, who is studying English at the university level; Britta Lundén, 22, of Sweden, a student at Lund University; Joke Beekelwid, 26, of Holland, a counselor for the center for youth psychiatry; Ingela Sonby, 21, of Sweden, a psychology major at Lund University; Hissling Schulze, 21, of Germany, a student at a teacher's training college in West Berlin.

They will be staying Monday and Tuesday night in the homes of Mr. and Mrs. Oscar Ash, No. 6, Del Rio avenue; Rev. and Mrs. James R. Craddock, 3241 Rodger avenue; Mr. and Mrs. John Gordon, 3132 Colgate place; Mr. and Mrs. Ed Lurton, 1638 Venice avenue; Mr. and Mrs. David Parrish, 2444 Waterman avenue; Mr. and Mrs. Gary Schneider, 4734 Lake drive; and Mrs. and Mrs. Muriel Spangler, 2608 Adams street.

## Lawmaker Scorns Group's Report On Pornography

State Rep. Sam M. Vadalabene (D-Edwardsville) this week denounced the preliminary report of the Presidential Commission on obscenity and pornography for its lack of concern with young people.

Vadalabene served from 1967-69 as chairman of the Illinois Obscenity Laws Study Commission. As a result of the commission's work, legislation was introduced to curb the sale of obscene material.

Terming the tentative recommendations "unsupported by general knowledge or the commission's own research," Vadalabene questioned the reliability of any study that focused only on the portion of the population that is made up of mature, well-adjusted adults.

The Edwardsville Democrat also discussed a strong act he introduced last year dealing with presenting harmful material to minors. The legislation passed the Illinois House only to be killed in the Senate.

"If the members of the Presidential Commission had really wanted to study the effects of pornography, they would not have used healthy, happily married couples as subjects," he would they have limited the research to those over the age of 21. That is like looking for the cause of the common cold in a highly-trained, superbly conditioned olympic athlete.

**Commission Conclusion**  
The commission concluded that erotic materials do not contribute to the development of character defects, nor operate as a significant factor in antisocial behavior or in crime, according to Vadalabene.

"What they should have clarified," he said, "was that they meant pornography does not operate as a cause of misconduct in normal adults. Previous studies and everyday experience confirm that what the commission neglects is the effect of obscene material on the unstable, peripheral people who live in the shadow of society."

"A person with anti-social tendencies may have them triggered by pornography. The commission ignored this problem."

"More damaging," Vadalabene went on to say, "is the commission's failure to examine the effect of obscenity on unsophisticated and vulnerable young people. They concluded that such material does not operate as a cause of misconduct in youth, and yet their reported research ignores youth."

**Parental Responsibility**  
"Parents rightfully feel their responsibility to raise their children should not be dictated. Still, with movies, magazines and books of questionable taste being so available today, parents cannot oversee the every move of their kids. The rights of parents and the well being of young people is what last year's legislation was designed to protect."

The act Vadalabene referred to would have made it unlawful for any person to sell to someone under 17 a ticket to a show or any book, record or magazine that is harmful to minors.

Harmful material is any which predominantly appeals to the prurient interest of the minor or is patently offensive to prevailing standards in the adult community as a whole with respect to what is suitable material for minors.

Convicted violators would be subject to a heavy fine and term of imprisonment.

Vadalabene pointed out that a law similar to this has already been constitutionally upheld in New York. He said Illinois would now have a strong law "if the members of the State Senate had not chosen to disregard this contemporary community problem. Illinois is not Denmark."

## Constitution Vote Offers Illinois Chance to Set Leadership Example For Other States in Troubled Era

By SAMUEL W. WITWER  
President, Illinois Constitutional Convention

Delegates to the Illinois Constitutional Convention were faced with answering a new, exciting citizen mandate for modernization of our Illinois constitution.

The people of Illinois would not accept or approve convention action stamping approval of the status quo.

By an unexpected and convincing 2-1 margin on Nov. 5, 1968, the people of Illinois expressed a clear call for constitutional modernization.

The people's voice was heard, leaving it up to the constitutional delegates to measure up to the people's mandate to propose a new constitution which will meet the challenge of the hour and the needs of tomorrow.

What, convention delegates propose, the people of Illinois dispose. The Sixth Illinois Constitutional Convention was charged with the responsibility and authority to hold a new constitution.

Illinoisans will praise the convention delegates accountable on election day for the way they measured up to this mandate.

Delegates to the convention would have been weighed in the balance and found wanting if they simply endorsed the status quo.

Clearly and unmistakably, the people of Illinois have said the "burden of proof" rests with the opponents of change. The people have rejected the status quo.

One of the world's great newspapers, the London Times once said: "What Illinois thinks today the Union will think tomorrow."

Illinois has an enviable reputation as a leader. And the Sixth Illinois Constitutional Convention brought a very real opportunity to add to that reputation.

Illinois is the first large state to have a Constitutional Convention in the 1970s.

At a time when our nation's institutions are facing convulsive challenges, ours is an opportunity to lead the way for other states to follow.

Some 35 states adopted new constitutions during the latter half of the 19th century, Illinois among them.

Illinois joined the crowd in that endeavor, however. We did not lead the way.

Our state responded to widespread and legitimate citizen reaction to blatantly dishonest public officials by launching out "lock-stock-and-barrel" by corrupt vested interests.

## Problems of All-Night Tavern Activity Recognized by Madison City Officials

Concern here in recent years over all-night Madison tavern operations has been regarded by some as excessive. "With other problems facing our community, does this really matter very much?" was the attitude of at least a few people.

Now that Madison city officials are coming to grips with the issue, its broader dimensions which existed all along—are becoming apparent. A report to the city council Sept. 15 related that "the majority of aldermen and citizens on the two committees feel as though our city has become somewhat of a gathering point for residents of outlying communities to come and drink alcoholic beverages."

These people flock into our city at 1 a.m. after the taverns close in the county, by the hundreds, most of the time under the influence of alcohol and in a state of mind of not really caring one way or the other what happens to our city. We feel we ought to have a restoration of the self-image of our city so that residents can be proud of the fact they live in Madison.

The report says it well. The issue at the moment is not drink, "wet" and "dry" advocates still do not agree on this point 50 years after the start of Prohibition. The question is whether non-uniform tavern hours are going to continue to maintain the scene of more than its share of "wee hours" traffic injuries, fights and shootings, with crime prevention complicated by the legitimate presence of so many people on sidewalks and streets.

A strong vote has been cast for hours uniform with those of Madison county and nearby cities within the county. The Press-Record has been suggesting this for some time and is certain from conversations with readers that a truly large number of Madisonians feels the same way.

The fact that the newly-elected administration is willing to immediately tackle what has been such a controversial matter bodes well for the future of Madison, both image and reality.

## Selection of Sternberg a High Honor

Selection of Gene H. Sternberg sr. to address the 1970 annual commissioner conference of the Transatlantic Boy Scout Council is a high honor not only for the local building contractor but also for the Quad-City area.

The Sept. 24-26 meeting is to be held at Berchtesgaden, Bavaria, Germany. Chief Scout Executive Alden Barber chose him from among more than 2,000 possible speakers qualified to discuss the challenges facing scouts serving the 30,000 American boys in Germany, France, England, Italy, Spain and 17 other countries.

His duties this week will include not only inspiring the commissioners to new heights of achievement in their scouting programs, but also addressing the council's executive board consisting of 45 general officers of the Army and Air Force and several Navy officers, headed by Gen. Joseph H. "Bugs" S. Meyer, commander-in-chief, U.S. Air Force, Europe.

Mr. Sternberg, former president of Optimist International, is proving himself to be one of the most successful and most effective leaders.

For some time we have been impressed by the variety of driving derring-do offered for the pleasure of racing fans at the "City Speedway" race track. But we must admit it's a Dallas, Tex., track has achieved a bit of "one-upmanship" by its latest crowd-drawing device—races between diesel trucks, events for school buses and "would you believe?" speed contests between motor homes.

We are still impressed by the courage and skill of those racing here, and by the colorful pageantry and thrilling competition resulting from their efforts. ## 25 Years Ago Press-Record Recovers War Medal

SEPTEMBER 21, 1945

A Press-Record story helped an overseas flying veteran recover his prized Air Medal which had been stolen from his staff while he was enjoying an evening at the White Swan Inn. Within two hours after the Press-Record appeared on the streets, Staff Sgt. V. A. Haroian came to the newspaper office to thank the editor.

He has just returned from Europe after 32 missions over Germany. The medal had been found by John Large, 1038 Greenwood street, Madison, a part-time lineerman for the Illinois Terminal Railroad, who saw it lying along the street car right-of-way near the Namekno Transit Co. bus garage, where a thief had thrown it.

With many items being removed from the ration list, the local War Price and Ration Board is reducing its office personnel. Mrs. Rohrbacher resigned to join her husband in the East when he arrives in port after a tour of supervisory duty. Mrs. Truly Bremer and Miss Mary Louise Johnson will be laid off next month. The five remaining staff members will emphasize price surveys and controls and the ration controls still in effect.

Father J. P. Jordan of St. Joseph's Catholic Church, pastor here for the past nine years, quietly observed his silver anniversary in the priesthood.

Sgt. Jack Friedman left for Chicago after a visit with his parents, Mr. and Mrs. E. A. Friedman, 1620 Fourth street, Madison.

**SMOKING, ALCOHOL AND DRUGS URGENT PROBLEMS** also to the community as well. To the Editor: We believe every person serve the total community, our should be acquainted with the world problems as well as those schools, scouting activities, sports, civic groups and the community. We believe each person should have in his heart the desire for the education of the world's problems as well as our own.

What kind of world do we expect to leave our children, our grandchildren and our neighbors' children? Shall it be a world of alcohol, cigarettes, drugs, alcoholics and dope fiends?

If we wish tomorrow's world to be a fit place for our loved ones we had best set a good example today. When will we wake up? When will the United States wake up?

We have good things in our country too numerous to count. But we have problems, alcohol, nicotine, drugs, riots, robbers, disrespect for parents, lack of self control, the preference for fun instead of an industrious endeavor, the compromising position taken by many church people.

What do we think of the man who each Monday morning takes his hammer and crashes out a window pane? What do we think about the man who ignites a bomb under his costly car? What about the farmer who each day destroys a portion of his growing corn crop? What about the man who each day tears off a part of his house and casts it into the bonfire?

The examples illustrate essentially what the man who smokes or drinks does to ruin his life. When will we wake up?

**RECORDS SET AT FAIR**  
To the Editor: Our sincere thanks for the assistance your organization has given us in publicizing the 1970 DuQuoin State Fair.

Despite some minor setbacks, the fair was a success. The fair was a good one. The opening weekend broke all past records, the 1970 Ham-banquet was truly one of the greatest, our stage shows offered variety for all ages, and thousands of fans enjoyed U.S. Auto Club auto racing, rodeo, livestock and other exhibits.

We hope you will continue to assist us in our efforts, not only in publicizing the fair but also on occasions when Hayes Fair Acres, Inc., presents other entertainment and recreation that will bring enjoyment to thousands of tourists in southern Illinois.

## Surcharge Factor in Tax Returns

(Internal Revenue Service)

Q) Should I make any change in my next estimated tax payment based on the expiration of the income tax surcharge in June?

A) No. Although the surcharge rate of 2 1/2% shown on the estimated form you filed expires this year, it will continue to apply to income for the entire year.

Any taxpayer who has not filed an estimated declaration and finds it necessary to do so now, should use the 2 1/2% rate for the surcharge.

Forms and instructions for making estimated declarations are available at IRS offices.

Q) When my divorce comes through will I still be able to claim a withholding exemption for my wife?

A) No. After your divorce you cannot claim her exemption.

Make the necessary change in your withholding by filing out a new W-4. Withholding Exemption Certificate, and giving it to your employer.

Q) When my father died, mother collected benefits from his life insurance; is that taxable?

A) If the benefits are paid in a lump sum they are usually not taxable.

Benefits paid in installments, however, may be partly taxable to the extent they represent interest.

Details on insurance payments may be found in Publication 325, Taxable Income and Nontaxable Income. Send a postcard to your IRS district office for a free copy.

I want to protest the disallowance of some deductions by the IRS agent who audited my return. Do I have to make a written request or can I just come in and talk to someone?

A) You can talk to a district conference. If the amount of tax involved is not more than \$2500 for any one year, no formal written protest is required to obtain a district conference.

This provides you the opportunity to present your side of the dispute to an impartial third party.

Q) I want to clear out some of my old bank records, check stubs, cancelled bills and the like. Is there any need to keep some of them for tax purposes?

A) As a general rule, the IRS may assess additional tax or you may claim a refund without the years of the due date of a return.

Therefore, any record you might need to support an item listed on your return should be kept at least three years.

Naturally you will keep some records longer. For example, records on the purchase of a home or the acquisition of stock should be kept longer.

## Overdue Work at Intersection Beginning

One of the dividends from the thawing of the Madison-St. Clair counties highway fund freeze is the "green light" given to resurfacing two-thirds of a mile of Illinois Route 111 and rebuilding its intersection with State Aid Route 35. A \$1,076,485 contract has been awarded.

The intersection, which will be redesigned and equipped with more effective traffic signals, has been one of the most hazardous and difficult to cross, especially in the late afternoon and evening hours when the volume of traffic is heavy.

The St. Louis Trades Council says it wants to avoid "depriving construction workers in Missouri of hundreds of millions of dollars in wages in building and maintaining the airport and constructing highways, motels and nearby industrial and business facilities." This assumes that it had a real prospect in the first place of obtaining whatever was being "deprived" of, and it seems to voice no sorrow at all over potential "deprivation" in Illinois.

## Parkview PTA Begins Year

Parents and teachers of Parkview school held their first PTA meeting of the new school year Thursday night. President Robert Hildebrand introduced Mrs. Agnes Fryntko, principal, who spoke on the educational program carried out at the school.

Mrs. Fryntko introduced 23 members of the school staff, including two student teachers, Mrs. Vicki Cicigo and Mrs. Linda Irwin.

Mrs. Fryntko announced that a special meeting for parents of children at the beginning primary level will be held Thursday, Sept. 24, at 7 p.m. at the school. Details of the Initial Teaching Alphabet reading program will be presented along with a film. Pupils of Mrs. Lynn LaLaurent, Mrs. Dorina Knight, Mrs. Evelyn Cross and Miss Mary Ann Wiseman are included in the I.T.A. program.

Richard Brinkhoff, director of the State Demonstration Center at Parkview school, spoke on the work of the center. Classes participating in the program this year are those of Mesdames Elizabeth Briggs, Lynda LaLaurent, Dorina Knight, Nancy Weber, Leanda Johnson, Catherine and Helen Schmisser, and Paul Kinde.

Hildebrand presented the teachers with a fan for use in the workroom, a gift of the PTA. He introduced officers and committee chairmen.

Mrs. Betty Rowlett, ways and means chairman, reported that the first fund-raising project will be a school sweatshirt sale to get under way in the near future. Flyers are to be sent home with the children and orders returned to the school.

Copies of a proposed budget for the 1970-71 year were distributed. The new budget was approved by the members. The Room mother chairman, Mrs. Joanna Spencer, reported that ladies who returned questionnaires will be contacted.

Glen Thronburg, health and safety chairman, announced that kits for a safety belt program have been ordered and will soon be distributed to the children.

The purpose of the PTA was read by the president. Ed Monahan, cubmaster of Cub Pack 28 sponsored by the PTA, talked briefly on scouting activities available at Parkview and said there are still openings in the pack for additional boys.

Parents visited the classrooms which were open for the occasion, and enjoyed refreshments served in the cafeteria by members of the executive board. Tables centered with miniature burlap scarecrows and tiny pumpkins and gourds arranged by Mrs. Cicigo.

Gene Briggs, a Parkview parent and assistant superintendent of school for Madison county, was introduced to the gathering by Mrs. Fryntko, as was Richard Ault, who is receiving in-service training within the Granite City school district.

Two Granite City defendants received prison sentences after pleading guilty to felony charges in connection with a burglary ring which operated here and in the county.

Aggravated battery charges against the Pulleys, Tubbs and Hodges and Beverly Noland and Granite City were dismissed.

## Plan Campaign to Identify Prisoners

A nation-wide letter writing campaign, urging the government of North Vietnam to release the names of U.S. servicemen held by Hanoi and to afford prisoners of war humane treatment in accordance with the Geneva Convention is under way in this area.

Mrs. Sandy (Noth) Innes, whose husband, Navy Lt. (jg) Robert B. Innes, has been missing in action since December 1967 while on a flight over North Vietnam, is heading the campaign here.

She is visiting local service groups calling attention to the plight of families of prisoners of war and those who have been reported missing without further word of their capture and internment.

At the same time, Mrs. Innes is asking club members to sign a mimeograph letter which seeks cooperation of the North Vietnamese government in permitting mail to be exchanged between the man and his family and a list of service-men held by North Vietnam. Groups and individuals wishing to sign the letter, compose a communication of their own choosing, may contact Mrs. Innes at 976-5200.

Signed letters returned to her by Sept. 30 will be taken to Washington, D.C. when state representatives of the National League of Families of American Prisoners and Missing in Southeast Asia organization will present the letters to the Postmaster General for shipment to North Vietnam. Letters also may be mailed to Mrs. Innes at P.O. Box 674, Granite City.

First and second place medals will be presented the top US agency and non-agency booths, while workers will receive appropriate blue and red ribbons.

## Best Fun Fair Booths May Earn Medals, Ribbons

Gold and silver medals, scribed appropriately, will be strung on red, white and blue ribbons, may be earned by booth sponsors in the 1970 United Fun Fair, to be conducted Saturday and Sunday, Oct. 3 and 4, at Wilson Park rink pavilion, Fun Fair co-chairman, Leo H. Konzen and Carl Mathias, announced today.

The heavy metal discs, inscribed appropriately, will be awarded to the winning booths in two categories, the chairmen reported. First and second place awards are to be presented to the top booths sponsored by a United Fund agency, with the same awards made to sponsors of attractive non-agency booths.

Working personnel in the winning booths will receive inscribed ribbons denoting the award their display has earned, Konzen said. A panel of judges will be named at a later date to evaluate the exhibits and select the winners.

Criteria for a winning display will include such points as novelty arrangements, general decor, public interest and the booth's ability to raise funds for the United Fund campaign. All proceeds derived from the Fun Fair are channeled into the United Fund program.

Last year's first and second place winners in the UP agency division were Catholic Charities and the Girl Scouts. Top non-agency booths were those sponsored by the Quaker City Council of Churchwomen United and the Women's Division of the Tri-Cities Chamber of Commerce.

## Adults, Teenagers Picket Long Lake Fire Station

It's not often that a fire department is picketed, especially a group of volunteer fire fighters. But it happened this weekend at the Long Lake fire house at Pontoon Beach.

The protest group, composed of teenagers and adults, was objecting to the firemen's decision not to rent their adjacent hall for Teen Town dances this fall. The protesters were members of the Nameoki Youth and Adult Community Services organization and Pontoon Gators Teen Town.

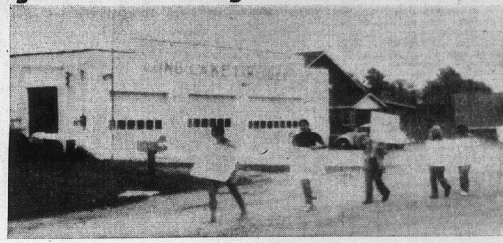

Posters carried by the pickets proclaimed their personal sentiments on the situation—Don't You Remember Being Young? "Firemen Unfair to Teens"; "Policemen Are Behind Us—Why Not You?"; "Where Do You Want Us, On the Street or in Teen Town?"; and "Where Are Our Civil-Minded Firemen?"

Mrs. Sharon Littlejohn, a youth group adviser, said the firemen, in a vote taken last week, rejected a request to rent the hall for Teen Town programs this winter.

**Used Hall Last Year**  
"We paid them a total of \$1000 for seven months rental last fall and winter," she stated, explaining the hall was rented one night per week for three hours, costing the group \$30 per session.

"We don't know exactly what the problem is, but their refusal appears to be politically motivated. They won't give us a reason, although it has been mentioned there was a fight at a Teen Town dance on one occasion," Mrs. Littlejohn said.

"One fight in seven months doesn't seem too bad a record when you are dealing with so many teenagers," she added.

**YOUTHFUL PICKETS** march along Pontoon Road in front of Long Lake Fire Department to protest fire association action refusing rental of the firemen's meeting hall for teen-town activities and dances.

"We hope through the picketing to call attention to our dilemma, as there is no place other than the fire hall for us to hold Teen Town in the Pontoon Beach area. Unless some public spirited person can offer a suggestion, we will have to cancel all events."

Mrs. Littlejohn noted that the community services group hopes to raise sufficient funds to construct a community center in the village. So far, they have been unable to undertake such a large project, she said.

Long Lake Fire Chief Jack Harper confirmed the firemen's refusal and cited several reasons.

"We let them use the hall for two years, but when the kids started to break windows and tear up equipment in the rest room, we decided against leasing it to them this year," the fire chief said.

"When Teen Town first was set up, the program was just for kids from the Pontoon Beach area," Harper continued. "Now they come from all over. I have nothing against the kids coming here from elsewhere, but for what we get out of it... it isn't worth it. In fact, we just can't afford to let them wreck the hall."

The volunteer fire chief also commented, "They don't clean the building properly after Teen Town events and there has been things going on at the dances that we don't like to see. Frankly, I don't care if they picket us from now on," he concluded. Little chance for immediate negotiations on the dispute was indicated last week.

The hope that arbitration may be possible and the difficulties resolved was expressed by the youth and adults manning the picket line.
